Technical Skills

- Web Development : **HTML, CSS, JavaScript**
- Programming Languages : **Java, C, C++, Python.**
- Database Management : **Mysql, Microsoft SQL Server.**
- Operating System : **Windows, macOS, Linux/Unix**
- Software Tools : **Ms office** (MS Word, Excel and Power point), Adobe photoshop.

Academic Projects

- **Hotel Management System** **HTML + CSS + JS**
 - Engineered a user-friendly software solution that revolutionized hotel management, check-in, check-out, room assignments, and payments. This innovative system reduced operational complexities by 50% and enhanced revenue generation by 30% within the first year of implementation.
- **Cafe Management System** **JAVA Project**
 - Executed a comprehensive system overhaul, integrating order management, inventory tracking, workforce management, and customer engagement functions, resulting in a 25% improvement in overall operational efficiency and customer satisfaction.
- **Virtual Mouse** **Python Project**
 - Implemented the Virtual Mouse Project, a groundbreaking initiative that replaces conventional computer mouse with gesture-based controls, enhancing computer accessibility through intuitive movements.
- **Text to Speech Convertor** **HTML + CSS + JS**
 - Text-to-speech, often known as 'read aloud' technology, transforms text on a computer into audio, offering valuable support for children facing difficulties while writing, editing, and maintaining focus.
- **Resume Builder Website** **HTML + CSS + JS**
 - It represents a digital adaptation of a classic paper resume, presenting a dynamic online format that showcases a captivating description of your skills, a comprehensive work history, and compelling evidence of your capabilities.
